

## REQUIREMENTS FOR FINAL SITE PLAN

Final Site Plan must be submitted within 12 months of a Conceptual Site Plan approval

The applicant must submit a complete application for final site plan approval to the Community Development Department, 655 North 1250 West. Additional information may be requested after the formal application is received.

1. Filing Fee	Fee must be submitted with final site plan application.
2. Walls, Fences and lighting	Show the location, design, type of material and height of existing and proposed walls and fences on the site. Show the location, design, type and height of existing and proposed exterior lighting on the site.
3. Signs	Show the location, design, type and height of existing and proposed exterior signs and outdoor advertising on the site (All signs require a sign permit).
4. Parking, Traffic and Streets	Show the location, layout, calculation and measurement of all parking, driveways, loading facilities, ingress and egress of vehicular and pedestrian traffic, internal circulation, name and width of existing and proposed streets, curb, gutter, sidewalks, drive approaches and the centerline of adjacent roads.
5. Utilities and Water	Show the location and layout of existing and proposed sewers, storm drains, culinary and secondary water (including water rights and water shares), overhead and underground power, communication and transmission lines and all other utilities and utility easements within one hundred feet (100')
6. Utility Provider	Utility Provider Sheets must be submitted
7. Dedications	Designation of all easements and rights-of-way to be dedicated to the City
8. Fire	Indicate existing and proposed fire hydrants within five hundred feet (500')
9. Garbage	Include location, material and measurements of dumpster enclosure.
10. Landscaping Plan	Provide a Landscaping and Irrigation Plan following 12-51-070 of the Zoning Ordinance
11. Architectural Drawings	Provide architectural quality drawings of all exterior elevations of the proposed buildings or structures and types of materials to be used at a scale of 1/4" to 1'. Drawings must be signed and stamped by a qualified architect.
12. Engineered Plans	Engineering construction plans and drawings for all proposed on-site and off-site improvements. All engineering drawings must be signed and stamped by a qualified, registered engineer.
13. Title Report	Provide a current Title Report of the site.
14. Survey	Provide a certified survey of the site, when deemed appropriate and requested by the Community Development Director or City Engineer.
15. Other Data	Other data, studies or plans may be requested as deemed necessary by the Community Development Director or other City Officials.
16. Security Bond for all Improvements	Prior to approval by the Planning Commission of a final site plan, the developer shall enter into a Bond Agreement acceptable to the City as security to insure completion of all improvements required to be installed in connection with the site development. The Bond Agreement can be one of the following: 1) Cash Bond Agreement accompanied by a cashier's check payable to the City, 2) An Escrow Agreement and account with a federally insured bank, or, 3) A Letter of Credit Security Bond for all Improvements (if required) Agreement and irrevocable stand-by letter of credit with a federally insured bank. The amount of the bond is determined by the City Engineer.

## PROCEDURES FOR FINAL SITE PLAN REVIEW

1. After Your Conceptual Plan has been approved, and the Final Site Plan application has been submitted, set up an appointment to meet with City Staff at a development meeting. Meetings are scheduled every Monday morning starting at 9:30 a.m. During this meeting, Staff will continue to review the progress of your proposed project.
2. When all required information is submitted for the Final Site Plan and the Zoning Administrator determines it is complete, staff reports will be prepared. You must have all the required changes completed and all fees paid before the final site plan application can be taken to the Planning Commission for approval.
3. A notice of the date and time of the public meeting will be posted on-site at least ten (10) days prior to the scheduled meeting date. Notices for a public hearing will be posted at three public locations. In addition, you will be sent a copy of the staff report and the meeting date, time and location.
4. At the Planning Commission meeting you will present your request and after due consideration, the Planning Commission will approve, approve with conditions, table, or reject the application. If your request is denied, you may appeal the decision by completing an application within fourteen (14) days of the decision which was made by the Planning Commission [12-21-200-(c)].
5. If you receive approval from the Planning Commission on your Final Site Plan, you will receive written notice of the decision. The final plans will be marked approved and will be used as the basis for inspecting development and construction on the property.
6. Prior to the issuance of a Building Permit you must submit a building permit application with two (2) sets of building plans, a plot plan to the Community Development Department. All plans must include any required corrections or revisions.
7. After the Building Inspector and other related departments have reviewed the plans, a pre-construction meeting will be scheduled to discuss the construction of the project. Construction may begin after you have paid all permit fees and the Building Permit has been released.
