52 Public Safety Impact Fees – Resolution No. 2017-21
53 b. Commence warranty period for Miles Manor Subdivision
54 c. Municipal Code Amendments regarding appointment of City Recorder and City
55 Treasurer – Ordinance No. 2017-31
56 d. Public Utility Easements for Symphony Homes
57

1 Councilwoman Fillmore made a **motion** to approve all four items on the Summary Action
2 Calendar, including Resolution No. 2017-21 and Ordinance No. 2017-31. Councilman Ince
3 seconded the motion, which passed by unanimous vote (5-0).
4

5 **PUBLIC HEARING – ZONING CODE AMENDMENT – DENSITY GRADATION IN R-M**
6 **ZONE**
7

8 Cory Snyder, Community Development Director, presented Ordinance No. 2017-28 with
9 revisions requested by the Council to cap the maximum density in the R-M Zone to six units per
10 acre, and to eliminate the conditional use permit option for additional density in the R-M Zone.
11 Development Standards were revised to prohibit apartments and parking lot style development
12 in R-M Zones. Responding to a question from Mayor Cutler regarding exterior design
13 standards, Mr. Snyder stated brick could be added to the list of acceptable building materials.
14

15 Mayor Cutler opened a public hearing at 7:22 p.m., and closed the public hearing seeing
16 that no one wished to comment. Councilman McEwan expressed concern with the “natural
17 elements” requirement in the Design Standards, and commented that most single-family
18 residences in the city would not meet that requirement. Mr. Snyder responded that design
19 standards are increased for the denser zone. Councilwoman Fillmore stated she feels good
20 about the proposed protection and increased standards for quality. She said her concern is not
21 with the bigger developments, but with the smaller multi-family developments that often get
22 neglected over time. She said she believes starting with high-quality materials may help negate
23 that tendency. Responding to a question from Councilman Ince, Mr. Snyder explained that
24 stucco does not have long-term durability. He pointed out that a developer can appeal to the
25 City if they want to build a project with materials not on the approved list.
26

27 Councilwoman Fillmore said she is not comfortable taking away the extra layer of control
28 and protection provided by conditional use, but the design standards as written make her more
29 comfortable. She said she will vote against the proposed Ordinance because she is not
30 comfortable leaving the question of R-M2 unanswered. She said she feels the proposed
31 ordinance is incomplete. Councilwoman Mecham said she believes conditional use has
32 changed since the time it was implemented for Main Street, and she likes the protection
33 provided by the proposed design standards. Responding to a question from Councilman Ince,
34 Mr. Snyder stated the landscaping and open space requirements match the City standard for
35 residential development.
36

37 Councilwoman Mecham made a **motion** to adopt Ordinance No. 2017-28, with the
38 addition of brick as an acceptable building material. Councilwoman Ivie seconded the motion,
39 which passed by majority vote (4-1), with Councilwoman Fillmore dissenting.
40

41 **WASATCH INTEGRATED WASTE MANAGEMENT DISTRICT**
42

43 John Higginson, Centerville liaison with the Wasatch Integrated Waste Management
44 District, reported that the Davis Energy Recovery Facility (DERF) is permanently closed,
45 resulting in a reduction in the life expectancy of the landfill. The DERF location will become a
46 recyclables processing and transfer facility. The Wasatch Integrated Waste Management
47 District does not anticipate an increase in garbage or waste fees for in-district residents at this
48 time. A \$25 out-of-district drop-off fee has been implemented. Responding to a question from
49 Councilman Ince, Mr. Higginson stated that glass recycling is costly, with little payback.
50

51 **UTOPIA/UIA UPDATE**
52

53 Roger Timmerman, UTOPIA Executive Director, updated the Council on UTOPIA/UIA
54 progress and growth. He reported growth in all existing UTOPIA markets. Mr. Timmerman

1 stated UIA is considering expansion to areas outside member cities to financially benefit UIA as
2 a whole. He emphasized that expansion outside member cities would only occur if member
3 cities would benefit. He said the desire of the UIA Board is to complete build-out of the network,
4 and make progress toward providing debt relief. The Council asked questions and discussed
5 possible ways to speed up debt relief.
