22 unanimous vote (6-0).

23  
24 **VOLUNTEER PROJECTS REPORT**

25  
26 The list of volunteer projects will be obtained from Rick Turner. Robyn Mecham, City  
27 Council Liaison, reported there are 765 fire hydrants that need to be painted throughout the City.  
28 Sunny Larson reported one of the bike teams she is affiliated with would like to do a maintenance  
29 service project on the trails where erosion control needs to be done.

30  
31 **HILLSIDE USES AD HOC COMMITTEE REPORT**

32  
33 Matt Johnson reported that Mark Oligschlaeger will not be able to be on the Ad Hoc  
34 Committee for hillside uses. Chair Jake Layton and Sunny Larson said they would be able to serve  
35 on the Ad Hoc Committee. The Ad Hoc Committee was going to start three weeks ago, but Sunny  
36 reported nobody has contacted her. She will contact Cory Snyder, City Planner, to see when this  
37 committee will meet.

38  
39 **ACTIVE TRANSPORTATION PLAN**

40  
41 Chair Jake Layton reported he rode his bike on the Fruit Loop Trail in Fruit Heights. He  
42 believes this trail would be too challenging for the City Council to ride on. This trail is a multi-use  
43 trail for hikers and bikers. He will find a different trail for the City Council to ride on.

1 Bruce Cox, Parks and Recreation Director, reported the ATP (Active Transportation Plan)  
2 Committee is winding down, and they will have an article in their newspaper on Centerville's plans  
3 for bike lanes. The article will feature that Centerville is an important link for the other towns. He  
4 will make a draft for the newsletter for the Trails Committee to review before he submits it.

5  
6 **TRAIL RUN**

7  
8 The Trails Committee discussed the possibility of doing a 5k trail run in the mountains on  
9 September 21<sup>st</sup>. Advertising would be done at the 4<sup>th</sup> of July Freedom Race.

10  
11 **TRAIL BUILDING AND MAINTENANCE**

12  
13 Sunny Larson reported the bike teams need to do service hours on trail maintenance. She  
14 displayed a picture taken below the reservoir that shows where erosion has occurred. A "fall in the  
15 trail" is where the water naturally goes straight down. A trail should never be placed on the route  
16 of a fall line trail, as there could be erosion on the trail. If possible, the water should try to be re-  
17 routed. An out slope is where the trail is not perfectly level, and then the water makes its own  
18 drainage path off the slope. A grade reversal can be made with a "trough" that allows the water to  
19 run down the middle of the trail.

20  
21 Funding is now available to repair the north canyon trail, and bikes and people will be able  
22 to hike on the trail when the repairs are completed. Signage will be placed on the trails, and it is  
23 hoped a downhill trail can be made for bikes to go down from elephant rock.

24  
25 **OTHER**

26  
27 Rick Turner has resigned as a member of the Trails Committee.
